

Valerie Fleischer

I have been an active EMBA board member for the past 3 years. It has been a learning experience for me as I am still a fairly new bridge player. Over the past few years we have really begun to focus on new membership and new players. I will continue to help out in this endeavor and ensure the future of this fabulous game. I would like the opportunity to be on the board for another term and continue attend committee meetings and to learn and be able to take a more active role in the organization to encourage new players to take the next step. Please vote for me and I will work to help make EMBA even better.
