

Cathy Cooper

I have previously served one term on the board; since then, I have continued to serve as the EMBA tournament coordinator for two years. Although I cannot play as much as I would like at the moment, I have continued to maintain an interest in the game and its governance.

I am still a relatively young player who is newer than many. I like to have fun and play hard, and do not feel these are mutually exclusive. I feel that EMBA needs input from a diverse group of people, views, and positions, and want a unit where everyone can play the game they want to. I would be honored to have your vote, and to have the chance to bring both my point of view and yours to the table.

Good luck, and have fun!
