

David Aronson

I am pleased to run for re-election to the EMBA Board. As a past President and a continuing bridge teacher, I bring to the Board some years of experience dealing with concerns and issues of our local bridge organization. We are continuing to reach out to more young people, to adults who are coming back to bridge after years away, and to encourage more "social bridge" players to come to our local clubs and sectionals. We have made some real progress in all these areas, but we need to do more. We should be expanding the number of bridge teachers and encouraging more bridge players to take classes. Finally, we are looking at our tournament schedules to see how we can maximize the type of player-friendly games and increase the number of players attending those tournaments. I hope that I can count on your vote as I work on these and other important issues.

In very exciting news, the NABC National tournament will be held in Providence, RI, in the summer of 2021. We will be encouraging everyone to not only play, but to volunteer to make this an incredible event.
