

Rosemary Meehan Tator

I began playing duplicate bridge in the mid-90's – Had a wonderful time as a novice player – Also had the opportunity to run several sectionals in New Hampshire and the Boston '99 Nationals Novice Section. Left bridge for a while and came back about 5 years ago. Here's what I will bring to the EMBA Board:

1. I understand and enjoy players and know how to listen– as a management consultant and leadership coach I've worked with people of all ages from many different backgrounds to bring about the desired results.
2. I have an open, positive, we can do this attitude – as one friend says about me "I've never met an obstacle that can't be overcome".
3. As an entrepreneur and business owner for many years, I bring the ability to hear all sides of an issue and work to bring forward positive results.

I'm asking for your vote. Thank you.
